

X-STYLUS PEN

XMG-XSP-03

Bluetooth stylus pencil for iPad with wireless charging

DESCRIPTION

The new XtremeMac X-Stylus for iPad works with pixel-perfect precision and extremely low latency, tilt and pressure sensitivity, and imperceptible lag. The X-Stylus pen makes painting, sketching, doodling, and note-taking better than ever!

It features a flat edge that magnetically attaches to your device when it's time to charge or pair, no cable is ever needed! And the charging level of the X-Stylus is always visible in real-time on the iPad screen.

While writing or drawing, just slant the X-Stylus to change the angle and adjust the boldness depending on your liking and needs.

A smart LED light indicates when the pen is charging or low on battery (RED), fully charged (GREEN), or when on Standby or working mode (BLUE).
